

Attachment Hydraulic Rail Thongs

Hydraulic rail thongs for loading and laying of all common types of rail.

The Rail Thongs uses material indulgent clamps and enables the operator by the way of handling an easy loading and laying of all major types of rails.

Technical Data:

Lifting Capacity	: max. 4.000 kg
Width Gripper	: 300 mm
Height	: appr. 1.300mm
Weight	: 550 kg
Operating pressure	
Grap open/close	: 320 bar
Grap rotating	: 250 bar

Operational advantages of the Rail Thongs:

- 360 ° rotatable
- Cost-cutting effect through reduced need for personnel
- May be used on all standard excavators
